

Dr. Eva Maria Reichardt

ABBOTT

Dr. Eva Maria Reichardt is a toxicologist and Scientific Affairs Manager for International at Abbott's Toxicology division, where she supports global partners across law enforcement, workplace testing, clinical toxicology, and broader public safety programmes. Her work focuses on translating complex analytical science into practical, evidence-based solutions that strengthen drug detection strategies and operational decision making worldwide.

With a background spanning oral fluid research, product evaluation, and scientific leadership across international markets, she collaborates closely with laboratories, policymakers, and industry experts to advance innovative and reliable approaches to drug testing. Dr. Reichardt is an active member of SOFT, TIAFT and ICADTS and a frequent presenter at international scientific forums, including ROADPOL, SOFT, TIAFT, and ICADTS.

Her research has been published in the Journal of Analytical Toxicology, and she is a recipient of the Educational Research Award from the Society of Forensic Toxicology. Fluent in English and German, she works with key opinion leaders globally to support the development and adoption of scientifically robust, operationally relevant toxicology solutions.
